---

I spoke with Kim on the phone Friday. She wants me to look these things over and call her on Monday to schedule an appointment with her and Judge Skahan. She selected me (the PSI) because I completed an online interest survey for the State at some point not long ago. Amaia and Susan Neely Barnes of Social Work also indicated interest, but Kim said she specifically wanted to approach the evaluation from a "public safety" perspective.

The amount is up to \$8000.

Not sure if this would be best done through U of M. Could it go through the Crime Commission? Wouldn't be much left if UM took 43.5%.

Thoughts?

Angela D. Madden, Ph.D.

Subject: Funding/Partnership Opportunity - Recovery Court Evaluation Projects

Importance: High

## Recovery Court Coordinators,

In an effort to increase the local capacity of Recovery Court programs to comply with *Key Component VIII – Monitoring and evaluation measure the achievement of program goals and gauge effectiveness*, TDMHSAS is partnering with TARCP to provide small evaluation grants (\$5,000-\$8,000) beginning in October 2018 to support researcher-practitioner partnerships between local Recovery Court programs and a network of interested evaluators across the state who have been identified through a survey of interest.

Each coordinator who is interested in partnering with an evaluator on this project should reach out to one of the evaluator contacts identified on the Evaluator and Recovery Court Map below. Evaluators have identified the counties in their coverage area, as well as their areas of interest including: 1) Evaluation/Research of Recovery Court program; 2) Internship/Staffing Placement; and 3) Site Visit to a Recovery Court Program. The coordinator should then work with the evaluator to provide a brief summary (1-3 pages) of the proposed scope of work to be conducted through this partnership. The summary should include the following:

Type of technical assistance/evaluation services, i.e. (development of performance measures, identification of data gaps, development of a process evaluation plan, conducting initial data collection (quantitative or qualitative) measures associated with the process evaluation plan, etc.).

Who will conduct the evaluation services (names of faculty, graduate assistants, students, etc.)?

Project budget with line item costs.

Will Institutional Review Board (IRB) approval be necessary for the scope of work proposed?

A summary of the information that will be included in the final report for the project. Note, this report will need to be submitted to TDMHSAS by 9/30/2019 unless an extension is approved.

Project summaries should be attached to the Application Survey. All applications should be submitted by August 31st in order to receive consideration for funding. Subcontracts with evaluators will be administered through TARCP with a targeted project period of October 1, 2018 September 30, 2019. Funding is limited for this project and local recovery courts are encouraged to explore ways to incorporate researcher-practitioner partnerships into their programs moving forward regardless of funding availability. An evaluator survey will be conducted annually by TDMHSAS in an effort to expand the list of potential Recovery Court evaluation partners.

Thank you to all of the evaluators who have responded with interest to this project. Please feel free to reference the attached map to contact your local Recovery Court coordinator directly and discuss opportunities for collaboration. For those of you who indicated an interest in onsite or online trainings, a staff person from TDMHSAS or TARCP will be in touch to follow-up with you directly.
